

**DCH STANDARD APPLICATION FORM**

(The application has three parts: 1) a general brief description of key elements 2) scientific content, including background and goals, and 3) cruise plan and programme. Please find further information in the document: *DCH Information on application procedures* available at [www.danskhavforskning.net](http://www.danskhavforskning.net))

Application for shiptime year 201\_

*Cruise name*

Applied by *applicant name*

## **1 General section – overview of the project**

*This general section provides **brief** descriptions of **key elements** of the cruise, including a **short** resume.*

### **1.1 Applicant**

*Name, title, position, Institute, Address, telephone, e-mail.*

Text

### **1.2 Cruiseleader (if different from applicant)**

*Name, title, position, Institute, Address, telephone, e-mail.*

Text

### **1.3 Consortium (PI's and institutions)**

*PI's and their institutions.*

Text

### **1.4 Cruise name**

Text

### **1.5 Project name**

Text

### **1.6 Cruise/project acronym**

Text

### **1.7 Cruise objectives**

*Major objectives and methods to accomplish these*

Text

### **1.8 Geographical area**

*Geographical extent of research area, including potential work in national zones*

Text

### **1.9 Preferred ship**

*Rationale for preference. Attach description/specifications of preferred ship*

Text

### **1.10 Preferred period**

*Rationale for preference. Possible alternatives. Expected days for working and transit*

Text

### **1.11 Operation type**

*Basic operations, and daily procedures (daytime only, or 24 h work)*

Text

### **1.12 Cruise participants**

*Participants, their position and role (preferably in a table)*

Text

### **1.13 Harbour of embarkment and disembarkment**

*This will be the standard base of the ship if not argued otherwise*

Text

### **1.14 Resume of scientific project and cruise programme.**

*Resume of the information given in sections 2 and 3.*

Text (½ page)

## **2 Scientific project**

*This section affords an extended description of the project/cruise background, goals and major outline*

### **2.1 General description of project**

*Scientific objectives, major elements, possible sub-projects, expected results*

Text

### **2.2 Scientific context**

*Background, state of the art, related studies, relevant publications (insert publication list at the end of form)*

Text

### **2.3 Primary goals of the cruise**

*Goals in a scientific context and rationale.*

Text

### **2.4 National and International dimension**

*Linkages to other projects and institutions. Cooperative aspects.*

Text

### **2.5 Innovative value, impact and relevance**

*Progress in science and development.*

Text

## **2.6 Educational aspects**

*Initiatives for education of students, PhD's or others*

Text

## **2.7 Publication and promotional strategy**

*Expected publications and promotional strategy*

Text

## **2.8 Consortium (if any)**

*Description of leading PI's and their roles.*

Text

# **3 Cruise plan and programme**

*This section affords a detailed plan for the proposed cruise*

## **3.1 Key elements of cruise plan**

*Cruise plan including scientific context and rationale.*

Text

## **3.2 Area of work, national zones**

*Details on working area, including stations and coverage of national zones.*

Text

## **3.3 Working programme**

*Details on all procedures, time schedule for transits and for deployment of instruments*

Text

## **3.4 General equipment**

*Use of standard equipment of the ship, list and describe expectations.*

Text

## **3.5 Special equipment**

*Use of other equipment, describe equipment and requests.*

Text

## 4 Budget

### 4.1 Requested funding from DCH

	Number of days / Number of persons	Unit cost (DKK)	Total (DKK)	Comments (explain if relevant the details behind the calculations / if more space is needed use the comments section <sup>2)</sup> below the table)
<b>Charter<sup>1)</sup></b>				
- transit				
- work				
<b>Travel</b>				
<b>Shipment of equipment and samples</b>				
<b>Costs equip. use</b>				
<b>Total</b>				

<sup>1)</sup> The applicant is expected to enclose an updated charter price quotation for the target vessel. The DCH secretariat can if needed assist in this process if contacted in due time (min. 2 weeks) before the application date.

<sup>2)</sup> Comments to budget, specify each entry:

### 4.2 Supporting funding

*Please provide a summary of funding available from other sources that will render the overall operation feasible, and please address the questions below:*

*Is there made provision for funding of analysing/publication of data collected?*

*Is the requested funding from DCH an integrated part of an already funded project, e.g. an EU project, which requires sailing but which does not have ships charter in the budget?*

*Is field and land based research associated with the expedition funded? If not is there an application pending?*

*Is the current application for the ships charter dependent on such funding?*

Text

## 5 External evaluators

### 5.1 Potential evaluators (5 candidates)

*Please provide name, institution, and possible contact details for 5 candidates that could be qualified to serve as external evaluators for DCH of this application.*

*The candidates should be internationally recognised researchers, and have no special personal or financial interest in the outcome, or otherwise be disqualified.*

	<b>Name</b>	<b>Institution, Country</b>	<b>Contacts</b>
